

A new growth agenda:

What will it take – from visions to action?

www.futuregreenland.gl

420 participants – 11 nationalities

Future or past Greenland?

What did you talk about at the Future Greenland conference?

We talked about the 80'ies and 90'ies...

The Vision Greenland

Commerce
& Industry

Reforms

Settlement &
Infrastructure

Economy &
Finance

Workforce &
Population

Education

Responsibilities:

- Strengthen
- Repatriate

Alliances,
relations and
fellowships

Vision

What can we use visions for?

Visions are healthy, especially if we take all the right actions on the road to fulfilling our vision!

Independence – whether to achieve it or maintain it, is a natural driver for all societies!

So what happened?

When Greenland is clear in its communication and takes responsibility – things happen and the world listens!

Strong partnerships are key - but we need to focus on prioritized topics to begin with

Greenland needs to better grasp the concept of foreign investments

The concept of “normal” needs to be expanded in order to address diversity in the workplace

Sustainability must be part of our base-development rather than an additional add-on

Future "of" Greenland 2024
