

PRE-ANNOUNCEMENT & TERMS of REFERENCE

Forthcoming Bridging Call for Main Project Applications

16th August 2021 – 8th October 2021

Background

It has been a practice for the programme to use remaining and de-committed funds towards the end of the programme's implementation to fund preparatory projects targeting envisaged specific objectives of a future programme.

At the Monitoring Committee (MC) in December 2020, it was decided that a bridging call for preparatory projects targeting main projects in the NPA 2021-2027 would first be launched after agreement on the themes of the new programme, and that the ToRs decided by the MC in June 2021.

Concept

As with previous bridging calls, the main purpose is to build a project pipeline for future main projects in the forthcoming programme and keep momentum and front-loading the future programme; thus allowing for a strong start. Secondly, to explore in practice the different themes proposed in the new programme which could influence the programming process or help design future calls.

The Bridging call will be funded by the NPA 2014-2020 and only actions eligible under the current programme can be funded.

See the Terms of Reference, which outlines the conditions for applying.
